U.S. EXPORT SALES

- Outstanding Export Sales
(Unshipped Balances)
on MAY 29, 1977
 - Export Shipments in
Current Marketing Year
 - Daily Sales Reported
MAY 30 - JUNE 5, 1977
- As Reported by Exporters

Outstanding export sales as reported by private exporters and compiled with other data in this release give a snapshot view of the current contracting scene. At any given time in the course of a marketing year outstanding sales do not bear a consistent relationship to eventual export shipments. A meaningful export projection is not obtainable by the simple device of adding outstanding sales to exports to date. The latter data, alone, may provide a more reliable measure of current export activity than may be derived from a year-to-year comparison of outstanding sales.

EXPORT SALES REPORT

Comments on release of June 9, 1977 (based on reports from exporters for the week ending May 29 unless otherwise noted):

Wheat: Sales activity was extremely limited with Japan, Venezuela and Ecuador the only notable buyers. The expiration of the 1976/77 marketing year (MY) has prompted the switching of some sales to the new MY. Optional origin Durum sales of 110,000 metric tons (MT) to Algeria for the 1977/78 MY were reported under the daily system. Exports for the week were reasonably good.

Corn: Sales activity regained some momentum after the lull of the past two weeks. Significant buyers included Spain, Japan, Portugal, Egypt, Mexico and numerous EC countries. Sales to unknown destinations also registered a sizeable increase. Sales reported under the daily system included 111,766 MT to unknown destinations for 1976/77 MY. Sales activity for 1977/78 was very light, with most of the increase to unspecified destinations. Exports fell back from recent levels, but still exceeded 700,000 MT.

Barley: Sales were modest with most of the week's activity involving contract adjustments. Shippers were apparently cleaning up 1976/77 business in anticipation of the new MY, starting June 1. All outstanding optional origin 1976/77 sales were assigned U.S. origin. These sales were combined with grain switched from unknown destination to make up the 29,300 MT shipped to Denmark. Malta's sole purchase for the MY (9,700 MT) was reported and shipped. The principal sale for 1977/78 was 45,000 MT to Korea. Exports continued heavy for the second consecutive week.

Sorghum: Sales activity was the heaviest in over 2 months with 84,400 MT to Mexico and 45,700 MT to unknown destinations accounting for most of the business. Optional origin sales were reduced by 70,000 MT as other than U.S. origins were assigned. Exports so far account for 79 percent of the official export projection while total sales equal 93 percent.

Soybeans: Contract adjustments during the week resulted in the first reduction in total sales so far this MY. Total sales for 1976/77 decreased to Japan, the USSR and Taiwan. This more than offset sales increases to the EC, Spain and Africa. Optional origin sales fell by 29,300 MT as the USSR and the PRC reduced their purchases by 7,000 MT and 22,300 MT, respectively. Sales for the next MY were small. Exports (318,800 MT) continued strong with the EC accounting for over 77 percent of the total.

Soybean Cake and Meal: Sales (86,200 MT) continued at a moderate pace. Mexico with 50,000 MT was the principal purchaser. Exports at 58,000 MT were off sharply from the preceding week and primarily to the EC and Mexico.

Soybean Oil: New sales were slow. The switch of 11,000 MT from unknown destinations 10,000 MT to Iran and 1,000 MT to India was the week's highlight. Exports of 21,700 MT were almost evenly split between India and Iran.

Cotton: Sales activity was moderate. Many countries purchased small quantities filling in requirements for MY 1976/77. Sales for MY 1977/78 continue good as Taiwan, Korea and Romania were the principal buyers. Exports rebounded to 108,300 RB with Asian markets accounting for 78 percent of the outgo.

Oats and Rice: Showed no significant activity.

1/ Includes contract tolerance adjustments. 2/ A separate purchase of a U.S. commodity from a foreign seller, not involved in a cancellation or buy-back of a previously reported sale. 3/ Includes decreases resulting from shifts in delivery period from one marketing year to another, changes from one commodity to another, "buy-backs" of all or part of a contract balance by mutual agreement, and unilateral cancellation by one party which could result in a contract dispute. 4/ Does not include exports for exporter's own account.

Data shown above may not add due to rounding.
